

Como instalar munge en los nodos

NA! este metodo es mejor:

<http://www.slothparadise.com/how-to-install-slurm-on-centos-7-cluster/>

<https://github.com/dun/munge/wiki/Installation-Guide>

```
mkdir munge
cd munge
scp detritus.fundacioace.com:munge_export/* ./
tar xvf munge-0.5.12.tar.xz
cd munge-0.5.12/
./configure --prefix=/usr --sysconfdir=/etc --localstatedir=/var --
libdir=/usr/lib64
make
su -
make install
cd ..
cp munge.key /etc/munge/
useradd munge
chown munge:munge /etc/munge/ -R
chown munge:munge /var/log/munge/ -R
chown munge:munge /var/lib/munge/ -R
chown munge:munge /var/run/munge/ -R
chmod 700 /etc/munge/munge.key
/etc/init.d/munge start
```
